

January 21st 2008

To whom it may concern,

The present letter is to express our greatest satisfaction to Carpell Surfaces for the work during the installation of the soccer field synthetic surface at the Honco Soccer Complex in Lévis, in the fall 2007.

We were very impressed by competence and dedication of the Carpell team under the supervision of its president, M. Paul Caron, who was on site for the entire duration of the work. Not only, under tight deadlines for the opening, Carpell and its team took on the challenge and delivered a perfect field, but also managed to be ahead of schedule.

Furthermore, this company demonstrated an outstanding concern with follow up service by arriving promptly on site in order to satisfy our requests and train our maintenance team.

Congratulations to Carpell! I would recommend without hesitation this company for any project similar in size to ours.

Sincerely yours,

Simon Demers

Directeur général
