

M. Luc Poirier,

It is with pleasure that we wish to highlight the quality of the work of your company on the synthetic covering of our 200m athletics tracks at Transcontinental Secondary School in Pohénégamook.

The team, under the supervision of Pascal your site manager, worked with professionalism. The main users of the equipment, mostly the athletes from the Témiscouata Valiants athletic club, as well as the entire population of Témiscouata, will benefit from these tracks for years to come.

It is with pride that we will be able to organize competitions for the Bas-St-Laurent region. This will include provincial events for our youth of 10-17 years of age where some trials are well suited to our equipment

My regards to M. Caron as well as yourself, and looking forward to work with you again.

Paul-É. Lafrance,  
Responsable du projet et  
Entraîneur du club Les vaillants
